CIRCUIT COURT .- Com'th vs. John C. Long, three cases. Continued.

The grand jury returned indictments against John Wright, R. H. King, Wash (a slave), Curtis Farris, Samuel Keinman, and John C. Long. John Hopkins, James Powell, Peter Hanler, and Wm. McCormick were discharged.

The following prisoners, convicted during the term, were then sentenced:

Tarles Cady, 1 year; George Cook, 4 years; Martin Glenn, 2 years; Oliver Hall, 3 years; Wm. Eaton, 4 years; John B Brown, 1 year; Charles Hayes, alias Israel J Barry, 1 year; Wm. F. Powell, 3 years; and James Fuller, 2

We are gratified to see that the Commercial Review has entered upon the second year of its existence. That paper has exhibited great interest in promoting the commercial well-being of the city, and bas shown much industry and talent in its editorials. It deserves and we hope it receives liberal support from the mercantile community. Its editorials are frequently copied by other leading journals, and the commerce of Louisville has been masued. Messrs. Casseday and Fiske, the editention.

DR. GOLDSMITH. - We had the pleasure the other day of hearing a lecture from Dr. Goldsmith, Professor of Surgery in the Kentucky School of Medicine. He is a son of the dis tinguished Dr. Alvan Goldsmith, former'y of on Saturday, the following proceedings were this city and now of New York. The son inhere's the great talent of the father, improved and cultivater to a very high degree by study and practice. He is one of the most eloquent, impressive, and forcible lecturers we have ever herard anywhere. He is an ornament to the fine institution which has been so fortunate as to secure his services.

According to the Havana corresponden of the New York Herald, the Spanish Government if going into a wholesale fillibustering businese. Spanish naval expeditions were preparing to leave Havana for San Domingo City and Vera Cruz. One fleet would be sent to aid in the movement against the integrity of the Dominican Republic, while the other is to be despatched to support the pretensions of the Spanish Government in Mexico.

George P. Bond, Esq., who was recently appointed by the President, with the consent of the Senate, chief astronomer of the United States, under the act of Congress of August 11, 1856, to carry into effect the first article of the treaty of June 10, 1846, between the United States and Great Britain, running the boundary lone between America and Brftish Oregon, has declined the appointment.

Dr. White, the coroner, held an inquest on Saturday upon the body of a German named Leopold Ries, who accidentally shot himself with a pistol in the abdomen. He lived about half an hour after the accident. The deceased was a young man without a family and for some time previous to his death had been in the enaloy of Joseph Widner, a gardener near the

LARGE DECLINE IN PORK .- The recent failure of a large perk operator in New York seems to have had a disastrous effect on the market. On the 18th inst. sales were made in New York at \$22 50 for mess, and on the 25th it was sold as low as \$20 124 and closed dull.

MECHANICS' FAIR -Our sable aristocracy | RIVER AND STEAMBOAT MATTERS. | ocked to the exhibition in large numbers on Saturday night, and all seemed highly pleased with the novelties of the place. We believe that nothing is more responsive to music than a darkey's heel, and this fact was frequently illustrated during the evening. As the band alayed the "Arkansas Traveler" nearly every foot in the house "pitched in" in unison. Our colored population will long remember these glorious times.

Mr. H. Miller presents many finely-executed specimens of engraving; among them we notice seals, medals, business cards, illustrative dewell deserves success.

Mr. F. W. Johanbocke is represented by a case of tasteful gent's and children's hats. Mrs. J. L. Sharraid exhibits a very good

Among the lady visitors nothing excites more interest than the sewing machines. Mr. Sherman P. Whaley operates Singer's machine with a skilful hand. The Wheeler & Wilson machine is exhibited by Mr. A. F. Ward, who is the agent for this city.

Weissenborn's Patent Incrustation Preventor .- This invention, on exhibition at the Mechanics' Fair, is well worthy the attention of engineers and manufacturers. It is a neat and compact iron apparatus, occupying but a small space, by which the water is freed from all matter incrusting the boiler before entering it. The hard water is heated by the exhausted steam, and then conveyed through a number of small orifices, where the salt and solid matter terlally aided by the course which it has pur- is separated and retained, to the boller. FIRE IN MICHIGAN .- The Detroit Tribune says its country exchanges are everywhere complaining of the extensive fires raging in the of the largest class. She has 40 state-rooms. central and Northere portions of the State. At Owosso the school was closed, as the children and a hold 5 feet deep. She draws but 24 could not see to study. Fish are dying in the inches light and will go out on the rise without river, and cattle are reported also to have fallen victims to suffocation. The soil in the low lands is burned from one to two feet deep.

A great portion of the woods between Muskegon and Grand Rapids is on fire, so that immense damage is apprehended to the pineries in that region.

THANKSGIVING .- There is a very pleasing degree of unanimity observed, thus far, with reference to the appointment of a day of thanksgiving. The 20th of November has been fixed upon by eight States, as follows:

from our own Governor. Hon. Cyrus L. Dunham died at his resldence in Jackson county, Ind., on Thursday, the 23d inst.

L DIED, TH

On Saturday, the 26th inet., at 2 P. M., after a long and painful filmess, Mrs. HANNAM OVINGTON, widow of the late Charles Ovington of this sity, in the 46th year of her age. In this alty, on the evening of the 25th last., Jos. OLIVER BULLER, of New Orleans, aged 21 years and 2 months.

The wharf had a more lively appearance yes terday than it has for the last three months, produced by the rise. Up to yesterday it had risen about one foot and was still rising slowly. Boats which left Cinclinati on Saturday evening report that the river had commenced falling there. There has been no rise in any of the tributuries of the Ohio between Cincinnati and Calro. The present rise will give about 34 feet water from Portland to Cairo. Freights have declined.

About 51 o'clock last night it commenced signs, &c. Mr. H. is doing a fine business and raining and poured down for upwards of an hour at a tremendous rate. About 10 o'clock another shower feil.

The Canal. - We understand that a letter was received yesterday from Cincinnati requesting Capt. Lockhart to open the canal. There is, chromatic style, and also ecveral specimens of however, some excavation necessary to be done near the head of the canal where there is no embankment. A large force was employed on Mr. R. W. Marriner presents a fine case of it yesterday, and with a few days fair weather

The Falls .- Capts. Vansickle and Dryden have ceased working on the falls in consequence of the rise in the river and the exhaustion of funds. The flatboat channel is now wide enough for steamboats to run. There were about 16 well made and is equal in fineness to any East- inches water on the flats last evening. The Muscle is to be taken over the falls to-day. We ask the attention of all interested to this apprepiated \$300 and the City Council \$200 to Capts. Vansickle and Dryden. > During the past twenty-four hours, ending at noon to-day, it has rained almost constantly, and during last night and a good portion of this heard from the Illinois or Missourl this morning, but have reason to believe that the same rains have extended along those rivers. Since dark last evening, the river at this point has risen two to three inches, and the rains have not as yet had time to take effect.

> The last boat from below reports eight and a half feet water at Fairchild's island and Holein the-Wall, seven feet at Caffish bend, six and a half feet at Helena, and six feet at Presidents island, five and a half feet at Ashport and from there to Island No. 16. On the worst bars from Cairo to St. Louis she found but five feet. The Chancelior being sunk in the channel at Goose island, makes it difficult for boats to pass at that point.

> Sunk in Reality.—The Creole is badly sunk. She struck a snag while rounding out from a woodyard, above Columbia, on the 20th inst., and went down in deep water. The boat was on her way to New Orleans and was heavily leaded with produce.

The following is from the New Orleans Bulletin, of last Monday:

Accident to the Steamer Natchez.—The officers of the steamer Judah Touro, which arrived last night, report they passed the steamer Natchez, hence for Vicksburg, lying at the head of Grand View Reach, having lost her starboard wheel entire, also the wheelhouse. Was hailed by the Natchez and requested to take her in tow, but in consequence of the Toure having a large cargo of cotton on board and the wind blowing fresh, was unable to accommodate them.

MONDAY EVENING, OCT. 27, 1856.

OUR COUNTRY AND ITS PROSPECTS .- Some interesting facts are recapitulated in the United States Military Argus. It is stated that the population of the eleven infant colonies in 1701 328 262,000 souls. Georgia and Delaware were added to the number about 1749, and the census reports give us 1,046,000. In the year 2375, the thirteen colonies had 2,303,000 whites and 500,000 slaves. After the adoption of the present Constitution, in 1790, there were Thirteen States, with 3,172,664 white, 50,456 Aree colored, and 697,807 slaves. In 1850, the Bates had increased to thirty-one, and the popmation to 19,550,000 whites, 434,000 free colared, and 3,204,000 slaves. The total populatien is appreaching thirty millions. The num ber of electoral votes is 296, requiring 149 to elect a President by the people. The free Rates have 176, and the slave 120.

A Domestic Improvement .- Putting down carpets with tacks has always been a trial and bribulation to housekeepers, which ought to have been obviated by some better invention before this. We see that an improvement which will answer the purpose has been anmounced. It consists of a series of cast iron limitions, with the lower end formed in the shape of a cam. This is secured to the base board of the room, and when the carpet is properly the ship. None of them, nor the captain, were attended the cams are turned down upon it afterwards seen. The ship was soon in a blaze, and retain it firmly in place. This saves the carnet from the wear and tear of tacks and the foor from the injury of nails being driven moving of carpets but a few minutes' work.

[Correspondence of the N. Y. Tritune.] NEGRO INSURRECTION IN TEXAS. Columbus, Colorado co., Sept. 9, 1856.

The object of this communication is to state to you all the facts of any importance connect with a recent intended insurrection.

Our suspicions were aroused about two weeks ago, when a meeting of the citizens of the counwas called, and a committee of investigation appointed to ferret out the whole matter, and lay the facts before the people of the county fertheir consideration. The committee enterand upon their duties, and in a short time were in full possession of the facts of a well-organsaed and systematized plan for the muider of or entire white population, with the exception of the young ladies, who were to be taken caplives and made the wives of the diaholical mur-derers of their parents and friends. The committee found in their possession a number of pistols, bowie-knives, guns, and ammunition. Their passwords of organization were adopted, and their motto, "Leave not a shadow behind."

Last Saturday, the 6th itst, was the time designs. At a late hour at night all were to make one simultaneous, desperate effort with from two to ten apportioned to nearly every honse in the county, kill all the whites, save the above exceptions, plunder their homes, take their horses and arms, and fight their way on to

a "free State" (Mexico).

Notwithstanding the intense excitemen which moved every member of our community, d the desperate measures to which men are Mable to be led on by such impending danger to which we had been exposed by our indulgence and leniency to our slaves, we must say the people acted with more caution and deliberation than ever before characterized the ac son of any people under similar circumstances

More than two hundred negroes had violate the law, the penalty of which is death. But by a unanimous consent the law was withheld and their lives spared with the exception of three of the ringleaders, who were on Friday, the 5th inst., at 2 o'clock P. M., hung, day, the 5th inst., at 2 o'clock P. M., hung, with the unanimous voice of the citizens of the

Without exception, every Mexican in the county was implicated. They were arrested and ordered to leave the country within five days, and never again to return under the penalty of death. There is one, however, by the total want of feelings of humanity on the part mame of Frank, who is proven to be one of the of the Southern people. Passing through the

We are satisfied that the lower class of the Mexican population are incendiaries in any country where slaves are held, and should be dealt with accordingly. And, for the benefit of the Mexican population, we should here state that a resolution was passed by the unanimous votes of the county forever forbidding any Mexican from coming within the limits of the county.

Peace, quiet, and good order are again re-stored, and by the watchful care of our vigi-lance committee, a well organized patrol and good discipline among our planters, we are persuaded that there will never again occur the necessity of a communication of the character of this. Yours, respectfully,
John H. Kobson,

SHOCKING OCCURRENCE-Two Women Eat by Wolves .- Our pen has seldom had to record a more heart-rending circumstance than we are about to relate. Some ten days ago, in the northerly extremity of the township of Mor-mington, two females went out in the evening in search of their cows, and not returning that aight, search was made in the morning, when their skeletons were only to be found, their lesh having been devoured by the wolves. We are yet unable to record the particulars—the sad outlines only having as yet reached us. Our informant also states that a man in that locality has been missing for the last ten days. No trace of him can be found whatever, and fears are entertar ed that he met the same lamentable fate as the unfortunate women.

The wolves were never hefore known to be so numerous or so ravenous as they are this season in this section of the country. It is regarded as unsafe to be alone on the public highways after dark. Reports are reaching us almost every week of some of their ravages through the country. Almost every body has been visited by them, and mischief done to a

greater or less extent. A farmer in North Easthope had 30 sheep filled in one single night by them. They drove them to the barn-yard, and killed them there. A few nights previous they killed 12 belonging

be the same men.

Bears are also numerous and remarkably sacy. A Mr. Bennet of Mornington was at-taked a short time ago, in his own field, a little after dark, by an old bear with three cubs. He sought her off till some of the neighbors came to his relief. An immense one was killed in Mornington a few days ago.

APPALLING BURNING OF A SHIP .- The following details of a horrible case of piracy and burning of a ship at Macao have been received at Lloyd's: The Dutch ship Banca, Capt. Heymans, 700 tons buiden, with between 300 and 400 emigrants (coolies) for Havana, put back to Macao, about a month since (the dispatch is dated Hong Kong, Aug. 10), with her water casks leaking and cargo shifted, having encountered boisterous weather, and on reaching the outer roads brought up to an anchor. There she remained repairing, the officers exertising strict virilly contracting the cooling. cising strict vigilance in preventing the coolies going ashore, for fear they would make their escape. For three weeks, whatever discontent may have prevailed, no fears of an outbreak would seem to have been entertained, until a Chinese doctor warned the captain that mischief was brewing. In preparing for such a contingency as a raising of the coolies, the small arms were placed on the poop, and two guns were loaded with grape and pointed for-

About 9 o'clock of the night of the 8th, the disturbance commenced, and the crew took refuge on the poop. The captain first fired a shot or two overhead, but as that had no effect, and the coolies advanced toward them, yelling frightfully, armed with belaying pins, bricks torn from the cooking places, &c, the captain gave orders to his men to fire, and immediately a volley was poured into the infuriated mass from the two guns, and also from the small arms. This had the effect of checking and outting down the riot, and the coolies were driven below, but they sought revenge by setting fire to the ship, and in a few minutes the captain was appalled by seeing flaines issuing up from the fore hatch. A frightful scene of carnage followed; the coolies rushed up on deck, and no doubt murdered all the officers of fore and aft. In about an hour the mainmast fell with a crash, then the fore and mizen, and ahout midnight the magazine hiew up with a tremendous explesion. The ship was instantly into it, besides making the putting down and re- hurled to fragments, and a vast number of poor creatures, clinging on the chains, perished with her. Of the number who were on hoard, tncluding crew and passengers, about 500, only 150 escaped with their lives; the remainder were either burned in the ship or drowned. The affair has produced a great sensation at Hong Kong.

> THE MEXICAN PRIESTHOOD. - President Comonfort, says the N. Y. Evangelist, is engaged in the most important and sweeping reorm ever undertaken in Mexico in secularizing the Catholic Church, and dispossessing it of some of its illgotton treasures. The difficulties which have obstructed the progress of that State hitherto are to be attributed mainly to the overwhelming power of the Church. governments which were not pleasing to the pries's had no stability. Where there were two parties contending for the supremacy which ever the church inclined to succeeded.

> The hierarchy is overwhelming.
>
> The arch-bishop has nine bishops under him, all having cathedrals and chapters, except the Prelate of Sonora—with 185 prebendaries and canonries, 1200 parishes and a regular and secular clergy amounting to 10,000 persons under his complete dominion. Of the regular clergy, 2,500 reside in the capital, and the orders of the Dominicans, Franciscans, Carmelites, and Mercedarians possess 150 convents. The salary of the archbisho, is \$130,000 per annum, that of the bishop of Puebla was \$110,-000. The remaining bishops receive altogether about \$200,000 more. The Signor Lendo de Tegada, who is now at the head of the finances, asserts that the real property of the clergy is of the value of from two hundred and filly to three hundred millions of dollars.

> In the city of Mexico, containing five thousand houses, worth eighty millions of dollars, the church owns one-half, and the income has heen estimated by the minister at twenty millions of dollars. Waddy Thompson, our former minister at Mexico, was of the opinion that one quarter of the whole country belong ed to the priests. The quantity of gold, silver, and jewels in the churches is great enough to pay the whole foreign and domestic debt. A single balustrade, about three hundred feet long in the Cathedral of the capital, is supposed to be worth a million of dollars.

An Incident. — An incident occurred on Saturday, at the Arcade, adjoining our office, which furnishes an amirable commentary upon the atrocious charges of the abolitionists of a total want of feelings of humanity on the part prime movers of the affair, that was not arrested, but we hope that he may yet be, and have the don't to him such a reward as his black around a closely-packed crowd that appeared to be deeply interested in what was going on. to be deeply interested in what was going on. Curiosity led us to pause and inquire what was the cause of the apparent excitement. The bids were going on in a very spirited manner and generally at an advance of only five dollars at a bid, and at every bid the eyes of the crowd would quickly turn in the direction whence the bids proceeded, the interest and excitement being in the meanwhile upon the increase. The girl, a bright, intelligent latress, about fourteen years old, was evidently not indifferent to what was transpiring. There was no moisture in her eyes, but they assumed an expression which indicated that she feit some anxiety in regard to the result of the sale, which is not generally the case. As the bids reached near a thousand dollars, the excitement became intense, and, as that figure was called, a spontaneous hiss was heard from one end of the room to the other, followed by a vehement shout of "Turn him ou!!" "Turn A rush was made for the door, the him out!" hammer had fallen, and the girl also into the arms of—her mother, who had become her pur-

The explanation of it all was that the woman had been freed by her owner, and had earned money enough to buy her child, the mulatress in question, and being a very valuable servant several persons were very anxious to obtain her, but ali of them, with one exception, had pledged the mother that they would not bid against her, and they honorably kept their faith. It was the conduct of this one, who was bidding against the mother, which so exasperated the crowd on the occasion. The man made good his escape, fortunately so for him we think, as we heard sundry expressions about "dynching," etc., as the crowd came back to talk over the matter. The mother was so much affected by the joy of having obtained posses-sion of her child, that she swooned away and was carried out of the saloon.

We may add that the sale was a succession sale, and was not designed to be anything more than nominal, and nobody intended that the mother should be deprived of her child.

mother should be deprived of her child.

This incident, showing as it does the real feelings that predominate in the South when the chord of humanity is touched, is worth more than all the mock philanthropy which spends itself in crude theory and cheap denunciation, which has deluged the country and arrayed its different sections in bitter hostility against each other in modern times.—N. O. Bulletin.

The heroic Sir Charles Napier wrote very beautifully and touchingly to a lady on the eve of his great victory at Meanee—"If I survive I shall soon be with those I love; if I fall I shall be with those I have loved."

DEEPENING OF THE MISSISSIPPI RIVER .- The contract with the Government of the United States, through the Engineer Bureau of the War Department, for opening the Southwest Pass and Pass a l'Outre, in the Mississippi river, to a depth of twenty feet and a width of three hundred feet, and to keep these channels clear for the period of five years, has been awarded to Messrs. Craig & Righter, of Newport, Ky. The sum for which they contract to perform this work is \$330,000.

FIRE AT MARIETTA .- On Wednesday night the extensive works of the Harman Manufacturing Company, opposite to Marietta, were entirely destroyed. They consisted of machine shops, foundry, flouring mill, warehouses, and a large quantity of wheat, flour, and machinery on hand, was all consumed. Seventy-five to one hundred hands are thrown out of employment. Loss from \$75,000 to \$100,000. Insured for \$20,000.

A Type of its Kind .- A gentleman relates to the editor of the Norfolk American a very good anecdote, based on an incident which recently took place in one of the cars of the North Carolina railroad. It affords a timely time past, and that recently he had treated her and appropriate illustration of the tendency of a good deal of the ultra Southernism just at this | child. period. The American says:

Two persons of a highly respectable appearance of being gentiemen, commenced a conversation with him upon the political issues of the day, in which they proceeded to stigmatize the current agitation of the slavery question, by the Democrats at the South, as an arrant humbug, gotten up for party effect, &c. After a while they left their seats and went for-ward for some purpose, when two gentlemen, who had been listening in indignant silence to the Black Republican tirade of the first named gentlemen opened a conversation, in which they, took occasion to castigate, and to denounce most severely, the abolition proclivities of the gentlemen who had dared to stigmatize the holy horror of the Democrats over the slavery question, as so much unmitlgated humbugand finally intimated that such men were dangerous and that it would he hetter for them to leave the State.

Our friend tried first to induce a more charitable feeling towards the first speakers, but the two last would not entertain it; then suggested perhaps they (the last speakers) not capable of giving an unbiassed opinion, as probably each of them owned an immense number of slaves, which property they would be jeopardized by the liberal sentiments of the two first speakers. They assured him that he was mistaken, that neither of them owned a single slave, but that their indignation at the loose and incendiary doctrine of the two first speakers arose solly from a pure devotion to the South-anadulterated by a particle of personal interest.

After our friend-who, by the way, has the keenest possible relish for a quiet good thinghad succeeded in drawing out an immense amount of Buncomhe indignation, at the vile and incendiary doctrines of the first speakers, he very naively inquired if they knew who the men were whose abolition proclivities they were denouncing. No, answered they. Then, said he, I have the pleasure of informing you that one was Mr. Pettigrew, of North Carolina, who owns several hundred slaves, and the other is Jas. C. Johnson, who owns nearly two thousand! The effect can he imagined.

HEINRICH HEINE AND HIS MOTHER -"So she is still living, the 'old lady by the Damm-tho:?'" (her poetical appellation). "Yes," he replied, "old and sick and infirm, but with the same warm mother's heaft." "And you write often to her?" "Regularly, once a month." "She must be very unhappy on account of your condition?" "My condition!" echoed Heine; "oh, as for that, our mutual position is peculiar. My mother thinks me in just as good health as when she last saw me. She is old, and never reads a newspaper, and the few old friends who visit her are in the same condition. I write to her often, in as good spirits as I can, tell her about my wife, and say how well I am going on. As it is somewhat remarkable that the address alone is written by me, and that all the rest is in the hand of m secretary, I make her believe that I have a slight affection in the eyes that will soon pass away. and voluntarily refrain from much writing with my own hand. And thus she is made happy. That a son could be so sick and cherished as I am in reality, no mother could believe."

Power of Enduring Cold .- The mysterious compensation by which we adapt ourselves to the climate are more striking here than in the ropics. In the Polar zone the assault is immediate and sudden, and, unlike the insidious fatality of hot countries, produces its result rap idly. It requires hardly a single winter to tell who are to be heat-making and acclimatized men. Peterson, for instance, who has resided for two years at Upernavich, seldom enters a room with a fire. Another of our party, Geo. Riley, with a vigorous constitution, established habits of free exposure and active, cheerful temperament, has so inured himself to the cold, that he sleeps on our sledge, journeys withou a blanket, or any other covering than his walklng suit, while the outside temperature is 30 de grees below zero .- Dr. Kane's Journal.

Not Bad. - A good joke is reported to have taken place in the court of quarter sessions last week. An Irishman, charged with appropriating some trifling articles of clothing belonging to one of his neighbors, was placed at the bar for trial, and, after the indictment had been read, the usual question, "How say you, Patrick particles against a put to him. Patrick seemed nenplussed by the interrogato ry, but he soon recovered himself, and, scratching his head, replied: "Arrah musha how can I tell, yer honor, till I hear the evidence?" The answer, though not strictly in accordance with the prescribed form, was taken as a negative; the trial proceeded, and Patrick was acquitted. Pittsburg Chronicle.

A most villainous practice obtains among certain unknown parties in Washington city lately of destroying ladies' dresses as they walk the street with vitrol, oil, and other destructive fluids. It appears they lie concealed in cellars along the sldewalk, and, watching their opportunity, project the destructive matter through the grating by means of a syringe. LATEST NEWS.

BAROMETER Last night, 12 o'clock. To day, 12 o'clock. 29 56 29 63.

The river is at a stand here. It has risen altogether 16 inches at the wharf here. Boats which arrived this morning repo t it falling at Madison. A further rise is expected from the heavy rains last night. It rained very hard up the river, and all the telegraph lines are down, which is a pretty sure indication that the storm has extended over a large tract of country.

The Superior .- This new mailboat made her first appearance at the wharf yesterday morning. She is larger than the McLallon, but draws but two feet light. She has spacious cabins and rooms, is furnished with much elegance, and has all comforts. Capt. J. Blair Summons commands, Messrs. Durning and Moody efficiate as clerks, and Mr. Paul Huston is the chief engineer. They are all in their respective departments, like their boat, Superior.

GOOD MEDICINES .- It is estimated tha AYER'S CHERRY PECTORAL AND CATHARTIC PILLS have done more to promote the public health them any other one ceuse. There can be no question that the Cherry Pectoral has by its thousand on thousand cures of Colds, Caughs, Asthma, Croup, Infinenza, Bronchitis, &c. very much reduced the proportion of deaths from consumptive diseases in this ecuntry. The Pills ere as good as the Pectoral, and will ure mere complaints.

Everybody needs more or less purging. Purge the blood from its impurities. Furge the bowels, liver, and the whole visceral system from obstinctions. Furge cut the diseases which fasten on the bedy to work its decay. Eutfordiseases

waison fasten on the bedy to work its decay. But for diseases we should die only of old sge. Take satisfacts early and thrust it from the system before it is yet to strong to yield. Ayer's Fills do thrust out disease not only while it Is weak but when it has taken a strong hold. Read the astounding statements of those who have been cared by them from dreadful Scrofula, Dropsy, Ulcers, Skin Diseases, Rheumatism, Neuraigia, Dyspepsia, Interiai pains, Billious complaints, Heartburn, Headache, Gout, and meny less dargerous but still threatening silments such as pinyales on the feet still threatening ailments, such as pinples on the fese, Worms, Narvone Irritability, Loss of Appetite, Irregularities. Dizzlness in the heed, Colds, Fevers, Dysentery, and indeed every variety of complaints for which a Purgative

Remedy is required. These are no random statements, but are enthenticated by your own neighbors and your own Physicians.

Try them ones and you will naver be without them. Price 25 cts. per Box — 5 Boxes for \$100.
